HEAD OFFICE: REGINA, SASK.

W. WARREN
Deputy Minister

B. JONES
Commercial Superintendent

GENERAL INFORMATION

CONDITIONS OF SERVICE

- (1) Service is furnished for the use of the subscriber, his agents and employees on his business, its use must not be extended to other persons. Others desiring the use of a subscriber's telephone should be referred to the nearest public pay station.
- (2) If telephone service at the residence rate is given, and such service be used for the purpose of a business or profession, or other than the usual requirements of a residence, the Department may charge the business rate for such service. The advertising of a residence telephone number for business purposes shall be considered as bringing a residence under the business rate.
- (3) The telephone instrument is first located where the subscriber directs, if removed subsequently, shall be done by the Department at the expense of the subscriber. Where a telephone is to be moved, at least 10 days' notice is required and the subscriber must make out an application form for such move.
- (4) Profane or improper language over the lines is forbidden. The service of any subscriber breaking this rule may be immediately discontinued.
- (5) In case of necessity the Department may without notice, change telephone numbers.
- (6) Complaints regarding inattention or discourtesy on the part of employees, or of interruptions to service, should be made to the Local Agent. If the complaint is not adjusted satisfactorily, notice should be sent to the Department of Telephones Regina.
- (7) The attachment or use of any electrical or mechanical connection or apparatus with the lines or instruments installed by the Department is forbidden.
- (8) Uninterrupted service is not guaranteed, but all repairs will be made with reasonable despatch.

DIRECTORY NOTICES

- (9) Subscribers are requested to destroy all previous issues of directories.
- (10) Each subscriber is entitled without charge, to a directory for each initial and each extension telephone installed.
- (11) Every precaution is taken to prevent errors or omissions in this directory, but the Department assumes no liability whatever for damages caused to subscribers by errors or omissions in the compiling and printing of this directory. Local subscribers should report promptly in writing to the Local Agent errors which may appear in this directory. Rural subscribers should notify the Secretary of their Company of errors, the Secretary in turn notifying the Department.
- (12) To save time, and to avoid the needless disturbance of subscribers, always look up telephone numbers in the directory before making a call.
- (13) The closing dates for insertions, changes or corrections in this directory are July 15 and January 15. The Department reserves the right to change these closing dates without notice.
- (14) Call information for subscribers not listed in this directory.

DIRECTIONS FOR USING THE TELEPHONE

AUTOMATIC LOCALS

- (15) Remove receiver from hook before operating the dial. Bring the finger squarely to the finger top, and allow a slight interval to elapse between each figure. Face the transmitter with the mouth half an inch from the mouthpiece and speak distinctly but not too rapidly. If after calling a buzzing sound is heard, it indicates that the number called is busy.

DO NOT MOVE RECEIVER HOOK OR DIAL WHILE TALKING, AS THIS WILL CAUSE DISCONNECTION.

BE BRIEF. SOMEONE ELSE MAY BE CALLING

IF A MISTAKE IS MADE IN CALLING A NUMBER, OR IF THE DIAL IS IMPROPERLY OPERATED, THE RECEIVER MUST BE HUNG UP BEFORE CALLING AGAIN. IF CONNECTION IS ACCIDENTALLY BROKEN THE CALLED PARTY SHOULD HANG UP AND ALLOW CONNECTION TO BE RE-ESTABLISHED BY THE CALLING PARTY.

Always hang up receiver for a short interval before making another call, this allows the mechanism to release.

WHEN FINISHED TALKING HANG RECEIVER ON HOOK, OTHERWISE YOU ARE OUT OF SERVICE.

You can test your line by calling your own number to get busy test.

BEFORE DIALING FROM AN EXTENSION TELEPHONE LISTEN IN TO MAKE SURE THE LINE IS DISENGAGED.

Example—To call 2111. Remove receiver from hook, place finger in finger hole 2 and pull down dial until the finger touches the finger stop. In the same manner pull 1 three times. You are now connected with 2111. If the busy buzz is heard it indicates that 2111 is busy, and the receiver should be hung up and the number called again in a reasonable time.

AUTOMATIC RURALS

(16) REMOVE RECEIVER FROM THE HOOK AND LISTEN IN TO ASCERTAIN IF THE LINE IS DISENGAGED. If the line is disengaged push the latch on the receiver back to the hook to go up all the way. Then dial the number required in exactly the same manner as above, but remembering that when calling an automatic rural subscriber the ring number as the circuit number must be dialled. For example to call 4054 ring 11 six figures must be dialed 405411.

LONG DISTANCE SERVICE

(17) To place a long distance call, first call "Long Distance" by dialing 03. The answers give telephone number and name of person originating the call followed by the name of the person to be called.

Example—Number 1234 T. Jones calling, get A. Smith at 4000 Regina, if he is not at home, say "A. Grant."

(18) Long distance rates are quoted for an initial period of two or three minutes, for over time the initial period the charge is made by the minute.

(19) All long distance charges are made against the telephone from which the call originates, except in those cases where the originating party, before the conversation takes place, requests that the charges be made "Collect" and provided the called party agrees to accept the message "Collect."

(20) Complaints regarding unsatisfactory Long Distance service should be made to the Chief Operator or Local Agent, and if not remedied should be taken up with the Head Office, Regina.

REQUESTS FOR A REDUCTION IN TOLL CHARGES ON ACCOUNT OF UNSATISFACTORY CONNECTIONS WILL NOT BE ENTERTAINED UNLESS THE COMPLAINT IS LODGED WITH THE LOCAL AGENT OR CHIEF OPERATOR IMMEDIATELY AFTER THE COMPLETION OF SUCH UNSATISFACTORY MESSAGE.

(21) If requested, and upon payment of reasonable charges, a messenger will be sent when available to notify a non-subscriber to come to speak on long distance.

ADVERTISING

(22) For advertising rates and space in this Directory apply to the Commercial Superintendent, Head Office, Regina.

IDENTIFICATION OF EMPLOYEES

(23) Employees of the Department of Telephones, whose duties require them to enter the premises of subscribers or others, are supplied with an identification card bearing the Saskatchewan Coat of Arms, signed by the Chief Engineer. Subscribers and the Public are notified to refuse admission to their premises of any person holding out to be a Telephone employee, who cannot produce a proper identification card, and to notify the Telephone Agent at once.

RURAL COMPANIES

UNDER ITS RULES AND REGULATIONS THE DEPARTMENT DEALS WITH A RURAL TELEPHONE COMPANY AS A WHOLE, AND NOT WITH A RURAL TELEPHONE COMPANY'S INDIVIDUAL SUBSCRIBERS. THE SUBSCRIBERS OF A RURAL COMPANY SHOULD TAKE UP MATTERS AFFECTING THEIR SERVICE, WITH THE SECRETARY OF THEIR COMPANY.

DO NOT USE THE TELEPHONE DURING A THUNDERSTORM

Use Long Distance

Sure—Swift—Satisfactory

IT COVERS THE WEST

CONSULT YOUR DIRECTORY BEFORE CALLING

The overtime rate per minute is half the two minute initial rate quoted. Where the initial rate is shown as 15c and 25c, the overtime rate per minute is taken as 5c and 10c respectively. No extra charge is made for talking to or calling for a specific person.

Saskatoon Rural Subscribers (Automatic)

- (1) To obtain connection with an automatic rural subscriber, for example 4019 ring 11 dial the six figures - 401911. If the number called is busy the busy tone will be heard.
- (2) Rural subscribers before dialling should remove receiver and listen in to see if line is busy, if disengaged, push over the latch on the receiver hook which will allow the hook to go all the way and dial the number required in exactly the same manner as a town subscriber. If the rural line or the called number is busy, hang up and wait a reasonable length of time before trying again. Always remove receiver before trying again. Always remove receiver before dialling a number.
- (3) To call a subscriber on the same rural line ring with the generator crank in the same manner as on the manual system.
